

# CELLULAR FORENSICS, LLC

PRESENTS

## CELLULAR FORENSICS & DATA RECOVERY FOR THE PRIVATE INVESTIGATOR

This 16 Hour workshop includes 2 days of instruction and hands-on lab work with actual cell phones in a fully equipped lab setting. Mobile Forensics topics that will be covered include: Acquisition, Preservation, Analysis and Presentation of CDMA, GSM, and iDEN cell phone evidence, SIM Cards, and Memory Cards, Faraday Preservation, and applicable Laws.

At the conclusion of the workshop, students will have a strong fundamental knowledge of cell phone forensics with the ability to do full mobile acquisitions on their own. Each student will be provided with a certificate of completion for 16 hours of Continuing Education Units.

### **Course Requirements:**

Students should have basic computer knowledge with the ability to work in a Windows environment. Each student will be required to furnish their own laptop containing either a *Windows XP* or *Windows 7* operating system. Laptop should have CD reader and free USB ports.

### **Who Should Attend:**

Private Investigators, Computer Forensics Examiners, IT Security Specialists, TSCM, Corporate Security and Insurance Adjusters.

### **Tom Slovenski, Instructor**

As the owner of the first private mobile forensics lab in South Carolina, former police detective Tom Slovenski is dedicated to the continuing education of investigative professionals in mobile phone forensic investigations and data recovery. Tom is licensed and certified by the South Carolina State Police (SLED PDC2073) and the South Carolina Criminal Justice Academy to train police and other investigative professionals in Mobile Forensic Data Recovery.

Internationally, Tom is known for his dynamic presentations, authored works and his unique ability to describe the complex in an easy and understandable fashion.

### **Students will Receive:**

- Latest Version of **Secure View 2** software (*w / 1 yr. license!*) for acquisition of over 2200 phones
  - Complete Cable Kit
  - SIM Card Reader
- Other Essential Forensic Software (full and time-bomb versions)
- 16 Hours of Hands On Training
- Certificate for CEU Credits

*(these classes have been approved for continuing education by the South Carolina Law Enforcement Division and the South Carolina Criminal Justice Academy)*

# SPECIAL 2010 YEAR END PRICING FOR PRIVATE INVESTIGATORS

Many Agencies want to have more than one employee trained in Mobile Phone Forensics. But with the economy the way it is...well...let's just say, they aren't getting any Stimulus Money!

So we have come up with a way for an Agency to pay just a little extra and be able to have two or more of their agents trained. This way, the Agency has the software and cables to work the cases, as well as *multiple agents* who know *HOW* to use it!

So, here's our "STIMULUS PACKAGE" !

**Student 1: \$2295.00** This student will get the full class complete with the SV2 package.

**Student 2 or more: \$1250.00:** This student will get the training and a Certificate. They can use Student 1's software and hardware.

That's a "*Send One, Get Another One 50% Off*" Deal!

There is *no limit* to the number of students you can send. However, to get the discounted rate for your agents, the agents have to be from the SAME Agency.

**DON'T MISS OUT ON THIS TREMENDOUS OPPORTUNITY!**
